

C-130J PLATFORM SUPPORT

Simtech is the stocking distributor for UTC Aerospace Systems' C-130J Bleed Air System.

Simtech supports international C-130J operators, authorized C-130J maintenance centers and the United States Government. If a customer has a long-term requirement, Simtech can match our logistic support services to tailor just-in-time deliveries to enhance end user or depot performance.

COMPANY HISTORY

Founded in 1988, Simtech's focus is supplying military spare parts to allied governments, the United States Government and maintenance centers.

Simtech has distribution agreements with OEMs, including UTC Aerospace Systems, Curtiss-Wright Controls, Honeywell, Kamatics and Woodward. In addition, Simtech represents and has strong, long-term commercial relationships with many second and third-tier manufacturers.

C-130J Bleed Air System Components

Description	Part Number	NSN
