

F-16 Combustion and Controls

Woodward F-16 Combustion and Controls

Woodward is the leading manufacturer of F-16 Engine Fuel Flow, Combustion Systems and Servovalves. Simtech has been a Woodward distributor for this product line since 2008.

Currently, Woodward supports Fuel Flow and Combustion System components for both engines that power the F-16 fighter: the Pratt & Whitney F100 engine and the General Electric F110 engine.

In addition, Woodward performs repairs and overhauls for all their product lines.

As the leading worldwide distributor for these products, Simtech has supplied hundreds of Afterburner Spray Rings and Fuel Nozzles to FMS customers. Simtech also manages all FMS repair contracts for Main Engine Controls, Servovalves and Afterburner Spray Rings.

About Simtech

Founded in 1988, Simtech supplies military spare parts to allied governments, the United States Government and maintenance centers. Simtech handles customer support, logistics, and ensures all ITAR controls are met. Woodward's advanced manufacturing technologies and Simtech's superior distribution service provide end users with OEM parts, repairs and unparalleled support.
